

Fill-A-Form

Use “Fill-A-Form” when you want to send an individual Tenant Certification or Budget.

Do not use this area if you have another non-USDA software package that stores information about your tenants and/or budgets on your PC, unless it is your intention to NOT store the data entered here in those software packages.

For directions on sending data when you have a non-USDA software package refer to the section on [Sending Industry Interface Files Created with Vendor Software](#).

If you manage multiple projects, all projects that you are allowed to access by your user ID are displayed. If the list displayed does not contain all of the projects you need to access, verify with the Management Agent (TP ID) that you have access to all of the projects that you service.

Click in the radio button displayed in the Select column next the project for which you wish to transmit data.

The screenshot shows the USDA MINC User Projects web application. The page title is "USDA MINC - User Projects" and the URL is "https://usdaninc.test.sc.egov.usda.gov/MFH5elProfForKey.asp". The page features a navigation menu with "Home", "Help", "Contact Us", and "Logoff". A sidebar on the left lists "Application Functions" including "Send Files", "Fill-A-Form", "Review Transactions", "Project Worksheets", "Payments", "Task Calendar", and "Income Limits". The main content area is titled "Fill-A-Form" and "User Projects". Below this is a table with the heading "Select Project to enter information for:". The table has three columns: "Borrower ID", "Project Number", and "Project Name". Each row has a radio button in the "Select" column. The table contains 10 rows of project data.

The system displays the Transaction Selection page. The Transaction Selection page contains a list of action links for Budgets and Certification transactions. Click on the appropriate link to perform the desired action.

Action links to send or remove Budgets are displayed in a column on the left side of the page and links to send or remove Certifications are displayed in a column on the right side of the page. Below is a description of the type of action that can be accomplished on each link.

The following links are displayed under Budgets:

- **Send Proposed Budget:** If you click on this link, the system displays the Fiscal Year Select web page.

Select the Fiscal Year applicable to your Proposed Budget from the Fiscal Year dropdown menu. If your purpose for entering the Proposed Budget is to change the rent schedule, click in the Yes radio button, then submit.

If you do not intend to change the rent schedule, click in the No radio button, then submit.

The system then displays the individual line item values for the current Proposed Budget. If you selected the Yes radio button, the display also includes the current rent schedule. To complete the Proposed Budget, you must first use the dropdown menu to select the Site ID and use the calendar to select or enter the Effective Date.

The information presented in the rows of the **Proposed Budget** grid is defined in agency instructions for Form RD 3560-7, Multiple Family Housing Project Budget/Utility Allowance. For further guidance, refer to agency instructions. The current web address for these instructions is: <http://www.rurdev.usda.gov/regs/forms/3560-07.pdf>. Agency instructions for Form RD 1930-7 are no longer available.

Notes:

1. If you have an “Approved” Proposed Budget for the desired fiscal year, all other budgets that you submit associated to the same fiscal year must also be submitted on the same budget style.
2. Not all fields of Form RD 3560-7 are presented for entry. If a field on the form is the result of a calculation using other fields, the system calculates the values of those fields when the budget is processed. These lines are shaded and do not allow entry of a value in the field.
3. Below are some examples to aid in filling out the rent schedule portion of the proposed budget. Please review these examples to help you determine what rent schedule type is best for your project.

Rent Schedule

The following examples are included to illustrate how to complete a rent schedule.

Example A illustrates a **Default** or **Revenue Status** rent schedule:

Project A has 6 units. The project rents the following unit types and sizes:

- All units are 1-bedroom, non-designated size. Basic rent is \$376, Note rent is \$376, and HUD Rent is \$422. Each unit has a \$48 utility allowance for Other.

NOTE: If you transmit certification files to USDA and they are received after the 10th of the month, the system returns a message, “Certification is late.”

An example of sending in a Tenant Certification follows:

1. Verify that the site ID is the correct Site ID for the project you are sending in the certification.
2. Enter the effective date, or use the calendar pop-up next to the field to set the effective date of the certification.
3. Enter the Unit ID for this tenant. It must match the Unit ID displayed on the USDA Project Worksheet. Refer to the section for [Understanding your Project Worksheet Printout](#) to understand how to read your project worksheet.
4. Click on the arrow next to the Tenant Subsidy code field and select the correct tenant subsidy for this household.
5. Enter the tenant’s name on the top line.
6. Complete one line for each household member.
7. All fields must be completed for each line used.
