

Revision Log

Revision Log

This section provides information about revisions to the MINC (Management Interactive Network Connection) application, User Guide and Training Handbook. The effective date of the most recent revisions is displayed in the footer of this page.

Summary of Revisions

The application has been revised as follows:

- Added the ability for a Management Agent to control the MA User that is authorized to approve Project Worksheets and therefore authorize Pre-Authorized Debt (PAD) transactions against the borrower's bank accounts.

All current users have been defaulted to having the authority. This may be changed if so desired through the 'User Projects' function.

- Added the hyperlink for access to this revision log to the Message Board.
- Added the date the system was last updated to the Home page display.

The "User Guide" and "Training Handbook" have been revised as follows:

- Added discussion of Online Payment Approval functionality.
- Added discussion of Rent Schedules and provided examples of how to complete a Rent Schedule using MINC.
- Added discussion of messages that can be returned by the system when Industry Interface transactions are processed.

The effective date of this revision is 08/31/2004.
